WORLD'S LARGEST ELECTRICAL SHOW

INDIA: A RISING POWERHOUSE

India is emerging as a global leader, opening up vast opportunities for international collaboration and growth since the last decade.

80%

Increase in Power Demand to 243 GW

\$139 Bn

Investment in the Power Sector

1,90,700 ckm

of Transmission Lines Added

71%

Increase in Installed Renewable Energy Capacity

Largest & Fastest Expansion of Electricity Access to Rural Areas

INDIA AS A DRIVING FORCE IN THE GLOBAL TRANSITION TO A SUSTAINABLE ENERGY FUTURE

- ▶ Transitioning Towards **Clean Energy**
- ▶ Implementing **2400 GWH Battery Energy Storage** Systems for E-mobility, Data Centres, and Grid Support, with a Special Focus on Pumped Storage
- ▶ Increasing **Investment in the Renewable Energy Sector**, with a Total Investment of \$500 Billion
- ▶ Projecting a Growth Rate of About **10-12% CAGR** over the Next Seven Years
- ▶ Installing **123,577 km of Transmission Lines** and Achieving a Transformation Capacity of 710,940 MVA
- ▶ Aiming for a Total Renewable Energy Installed Capacity of **500 GW** by 2030, with a Special Focus on Nuclear Power through SMNR
- ▶ Strengthening Distribution Infrastructure using Smart Metering, **AMI, DSM, SCADA** etc., with an Investment of over \$90 Billion by 2030

India: Your Strategic Sourcing Destination

Robust Manufacturing Capacity in Transmission, Generation, Distribution, Renewable, Storage, E-Mobility and Green Hydrogen

Innovations through AI, Digitalisation, Automation and Machine Learning

Skilled Manpower

Research and Design Centers

Growing and Nurturing the Startup Ecosystem

ELECRAMA 2025

Reimagining Energy for a Sustainable Future

SUSTAINABILITY | INNOVATION | SAFETY & QUALITY | AUTOMATION

ELECRAMA is the flagship showcase of the Global Electrical Industry and the largest gathering of the power sector ecosystem in the world.

From source to socket and all points in between, ELECRAMA unites the whole range of solutions that powers the earth. A gateway to the world of electricity, the 16th edition of ELECRAMA promises unparalleled thought leadership forums for everything electric, including technical conclaves, in addition to equipment and technology industrial gatherings.

Why Exhibit @ ELECRAMA 2025?

1,100+

Exhibitors

10+

Country Pavilions

400,000

Business Visitors Footfalls

600+

Hosted Buyers
from 80 Countries

300+

Hosted Buyers from India
Comprising of Non-Utilities
& Utilities

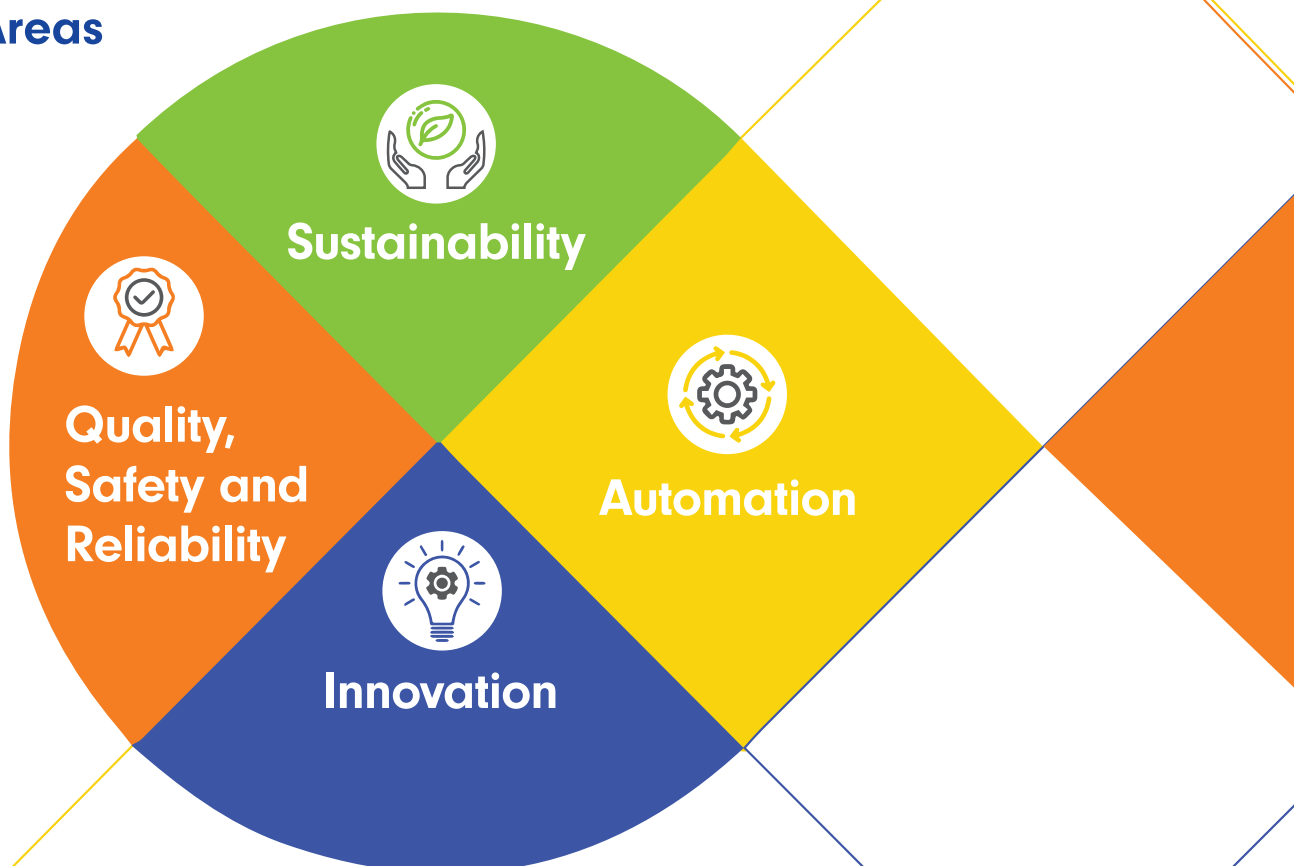

\$20 Bn

Expected Business Enquiries

15,000+

B2B Meetings

Focus Areas

SUSTAINABILITY

India is advancing in sustainability, targeting 500 GW of renewable energy by 2030. ELECRAMA supports this transition by promoting 'Viksit Bharat' by 2047, focusing on innovations in EVs, charging infrastructure, renewable energy, rail electrification, and carbon net-zero initiatives. It positions electricity as the key energy source for the future.

INNOVATION

India's power sector is rapidly adopting AI, digitalization, automation, and machine learning, unlocking growth in future technologies like energy storage, green hydrogen, fuel cells, and IoT. ELECRAMA will highlight how these innovations enhance efficiency, sustainability, and resilience, shaping the future of energy in India.

SAFETY & QUALITY

Quality and safety are paramount in the electrical industry, as they directly impact the reliability and efficiency of electrical systems. Aligning these principles with ELECRAMA emphasizes the industry's dedication to enhancing safety standards and fostering trust among stakeholders. As the sector evolves towards sustainable energy solutions, such as green hydrogen and renewables, maintaining high-quality practices and safety protocols becomes essential for ensuring a secure and resilient energy future.

AUTOMATION

Automation is crucial for the electrical industry as it enhances operational efficiency, reduces downtime, and optimizes energy management. At ELECRAMA 2025, showcasing automation aligns with the industry's push for smarter, more reliable systems that drive progress and innovation across power generation, transmission, and distribution.

CO-LOCATED EVENTS

World Utility Summit, a pioneering thought leadership forum, attempts to set the agenda for the future, actively playing the role of a key enabler for the eco-system, to develop optimal solutions, technology and products. The World Utility Summit is attended by CXOs of utilities, energy efficiency bodies, standards organisations, regulators, finance professionals and policy makers from around the world.

Theme: Empowering Utilities- Transforming Energy Challenges into Resilient Future

eTechNxt showcases new technologies which are going to impact the electricity and power sector in a big way. These emerging technologies will pertinently revolutionize the energy ecosystem.

Theme: Green Energy (R)Evolution- Carbon Markets, Storage & Generation

Reverse Buyer Seller Meet (RBSM), the biggest meeting place of International Buyers who plan to source electrical products and equipment from India. RBSM aligns with 'Make In India' initiative of Indian Government. 600 foreign buyers from. Africa, ASEAN, CIS, WANA, NAFTA, Europe will meet South Asia and Indian sellers in one on one meeting.

The Domestic Buyer-Seller Meet (DBSM), strengthens the Indian businesses, especially the MSMEs, opening the world market for them to achieve more business in and private utilities.

We reckon presence of Non-Utility Buyers from the Industry, Defense, Rail/Metros, Real Estate, etc.

The Electraverse Sparks Program is committed to accelerate startup growth, support the Startup Ecosystem and integrate them into the industry. It provides platform, resources, and industry connections to Startups.

To shortlist startups, IEEMA conducts Electraverse Sparks (EVS) Showcase and Awards. The stage of startups are: Idea to Minimum Viable Product (MVP) and MVP to Market Ready Startups in the Energies Domain.

'Women in Power Pavilion' is a celebration of achievements of women leaders, offering a platform to the professionals and aspiring young talents from diverse backgrounds to connect and thrive.

Acknowledging women's contributions & highlighting their remarkable achievements.

WHY ELECRAMA

- Find latest in product, technology, solutions and innovations
- An unmatched experience and opportunity to engage with the spectrum of industry players and network with global counterparts and key decision-makers
- Witness dedicated pavilions on New Energies & Energy Storage, Digital Energy, E-mobility & Charging Infrastructure, Startups
- A platform for growth opportunities and forging new business ties
- Impressive line-up of co-located events that offers a 360-degree touch that rounds up the ELECRAMA experience
- Platform to launch New Products
- Start up zone for Young and Innovative Companies

WHO SHOULD ATTEND

- Start-ups & Global Companies with Large-scale Energy Projects
- Government Bodies
- Utilities
- Developers
- Subcontractors
- Electrical Trading Companies
- Wholesalers & Manufacturers
- Banks, Financial Institutions & Project Financiers
- MEP Consultants
- OEM'S
- Policymaker
- Purchase Officer / Procurement Officer
- Big Buyers in the Industry

Get ready for an immersive experience like never before at ELECRAMA 2025 with an opportunity to find latest in product, technology, solutions and innovations.

New Energies & Storage

- **Brings Into Focus:** Cutting-Edge Solutions in Solar, Storage, Inverters, Batteries, Green Hydrogen and Supercapacitors
- **Connect With:** Renewable Energy Developers, Project Owners, Utilities and Investors
- **Showcases:** Solar Panels, Energy Storage Systems (Batteries, Pumped Hydro), Smart Inverters and Microgrid Solutions

E-Mobility & Charging Infra

- **Brings Into Focus:** Latest Advancements in Electric Vehicles, Charging Infrastructure and Battery Technologies
- **Connect With:** EV Manufacturers, Charging Station Providers, Component Suppliers and Government Agencies
- **Showcases:** Charging Stations (AC/DC Fast Chargers), Battery Management Systems, Components and Smart Charging Platforms

Digital Energy

- **Brings Into Focus:** Pioneering Technologies in Grid Modernization, Demand-Side Management and Energy Analytics
- **Connect With:** Utilities, T&D Companies, Industrial Consumers and IT Solution Providers
- **Showcases:** Smart Grids, IoT Applications for Energy Management, AI-Powered Analytics, Cybersecurity Solutions and Cloud-Based Energy Platforms

Power Transmission & Distribution

- **Brings Into Focus:** Advancements in Transformers, Switchgears, Conductors, Insulators, Reactors and other T&D Equipment Including HVDC
- **Connect With:** T&D Companies, EPC Contractors, Utilities and Government Departments
- **Showcases:** All Electrical Products including Digital Substations, Fault Detection & Automation Systems, Advanced Metering Infrastructure (AMI) and Disaster Resilience Solutions

Automation, Motion & Drives

- **Brings Into Focus:** Drive and Control Technologies, Components, and Systems for Industrial Applications
- **Connect With:** Manufacturers, System Integrators and End-Users Across Various Industries
- **Showcases:** Motors, Drives, Sensors, Controllers, Industrial Robots, Automation Software and Complete Motion Control Solutions

Startups

- **Brings Into Focus:** Groundbreaking ideas and Solutions for the Future of Power and Energy
- **Connect With:** Investors, Venture Capitalists and Potential Partners
- **Showcases:** Sustainable Solutions, Disruptive Technologies and Innovative Business Models

GLIMPSES

Indian Electrical & Electronics Manufacturers' Association (IEEMA) is the apex association of manufacturers of electrical, industrial electronics and allied equipment in India. Founded in 1948, IEEMA has a pan India presence with its corporate office in New Delhi, registered office in Mumbai and regional offices in Kolkata and Bangalore. IEEMA has its State presence in Lucknow, Chandigarh, Jaipur, Srinagar, Guwahati, Raipur, Bhubaneswar, Gujarat and Hyderabad. IEEMA has a membership base of over 1,000 representing a combined turnover of more than \$70 Billion exporting over USD 12 Billion. The members encompass a complete value chain in power generation, transmission and distribution equipment that ranges from public sector enterprises, multinational companies to small, medium and large companies. The industry provides direct and indirect employment to over 2.2 million persons.

CORPORATE OFFICE

Rishyamook Building, First Floor
85 A, Panchkuian Road, New Delhi - 110001, INDIA
Tel.: +91 11 2336 3013 / 14, Fax: +91 11 2336 3015
Email: delhi@ieema.org

REGISTERED OFFICE

501, Kakad Chambers, 132
Dr. Annie Besant. Road, Worli, Mumbai - 400018, INDIA
Tel.: +91 22 2493 0532 / 6528 / 6529
