

# Offering opportunities to obtain land plots to establish Recycling factories in Al Afja Recycling Industries

• in coordination with the authorities  
Ministry of Municipality and Ministry of Commerce and Industry •

# The importance of circular industries in the State of Qatar

Strengthening partnership with the private and public sectors to achieve a circular economy.

The State has established a dedicated area for investment in the field of recycling, which is the .Afja Zone for Recycling Industries

The importance of recycling industries comes from the principle of preserving the environment in the State of Qatar, stopping the depletion of natural resources and the introduction of the latest technologies.

In line with the great development taking place in the country, which leads to an increase in the percentage of waste.
